# Mouldings

- 1 ARCHITRAVES:** In classical architecture, it described the main beam resting on the tops of the columns. Today it is often used as a decorative moulding for ornamentation or finishing at the top of windows and doors.
- 2 BASEBOARDS** Baseboards are placed along the wall at the floor. They should be chosen to work in harmony with your casings to finish and tie the room together. Baseboards are usually thinner than the casing.
- 3 BUILD-UPS:** Combining two or more moulding profiles to create a new or custom look. Also called stacking, build-ups make it easy to create the look of custom made trimwork without the high cost.
- 4 CASINGS:** Casings define the overall character of a room and are often the most visible part of the trim. They are used primarily to cover the gap between drywall and the door or window frame. Casings are generally thicker than the base mouldings.
- 5 CROWNS:** Crowns are placed along the wall at the ceiling. They come in a wide range of patterns and sizes. Crowns soften the transition from wall to ceiling while adding a distinctive look and charm to your room.
- 6 FINISH BOARDS:** Finish Boards come in either S4S (Surfaced 4 Sides) or S3S (Surfaced 3 Sides) and are used for a multitude of purposes including shelving, window liner, bases, casing, etc.
- 7 PANEL MOULDS:** Panel Moulds are used to frame wall paneling and add an accent to your walls. Often used in furniture construction.
- 8 RAKE MOULD:** Rakes are often used as crowns. In fact, they are sometimes called "solid crowns".
- 9 WAINSCOT:** Trimwork installed in the area below a chair rail. Numerous options are available including raised panel, shadow box and beaded. Combined with a chair rail and baseboard, Wainscoting creates a dramatic look to any room.
- 10 WINDOW STOOL:** Also called window sill, a Window Stool is the surface installed below the sash of a window. Trim installed under window stool creates a distinctive look and adds a decorative touch.

# Classic Elegance

Trademarks of detailed woodwork and graceful lines, combined with classic styling, create a calm and comfortable décor that exudes timeless elegance.

Enhance your decor with wall panels!

# Wainscot Pack

Elevate your space with our Wainscot Pack, a curated collection of diverse moldings designed to create elegant and cohesive wainscoting.

Each pack brings together meticulously crafted pieces that add a touch of sophistication to your walls.

Whether you seek a bold statement or subtle elegance, our Wainscot Pack offers a versatile solution to meet your design needs.

# S4S Board

- S4S (Surfaced Four Sides) moulding is machined to have a perfectly smooth surface on all sides, ensuring a clean and polished look.
- S4S moulding is typically pre-coated with a protective finish, like a water-based primer or UV coating, for added durability and a ready-to-paint surface.
- S4S moulding can be easily painted or stained to achieve the desired color and finish, offering added protection and customization.
- S4S moulding is typically made from high-quality wood, such as pine, oak, or other hardwoods, known for their durability and aesthetic qualities.
- The wood is precisely cut and planed to uniform dimensions, ensuring consistency in every piece.

## Versatile Trim Solution

It is suitable for a wide range of applications, including trim, casing, baseboards, and other decorative purposes. The even finish adds a refined, professional appearance to any project, enhancing the overall aesthetic.

# Stair & Millworks

Elevate your home with our Stair & Millwork collection. Expertly crafted for both style and durability, our stair components and millwork accents add elegance and character to any space. With a focus on quality and precision, each piece enhances your interiors, creating a lasting impression of timeless beauty.
