

Frame & Casing

Frame & Casing deliver clean lines, precise fit, and a complete, cohesive door system finish.

FOUR TYPES OF DOOR FRAMES

Single Rabbeted Jamb

L-shaped frame profile with weather strip groove for tighter sealing. Commonly used for exterior and fire-rated doors.

Split Jamb

Two-piece adjustable frame structure designed to fit different wall thicknesses and simplify installation.

Flat Jamb

Flat and clean frame profile commonly used for folding, pocket, and sliding doors. Optional stop for interior door applications and easier adjustment.

Double Rabbeted Jamb

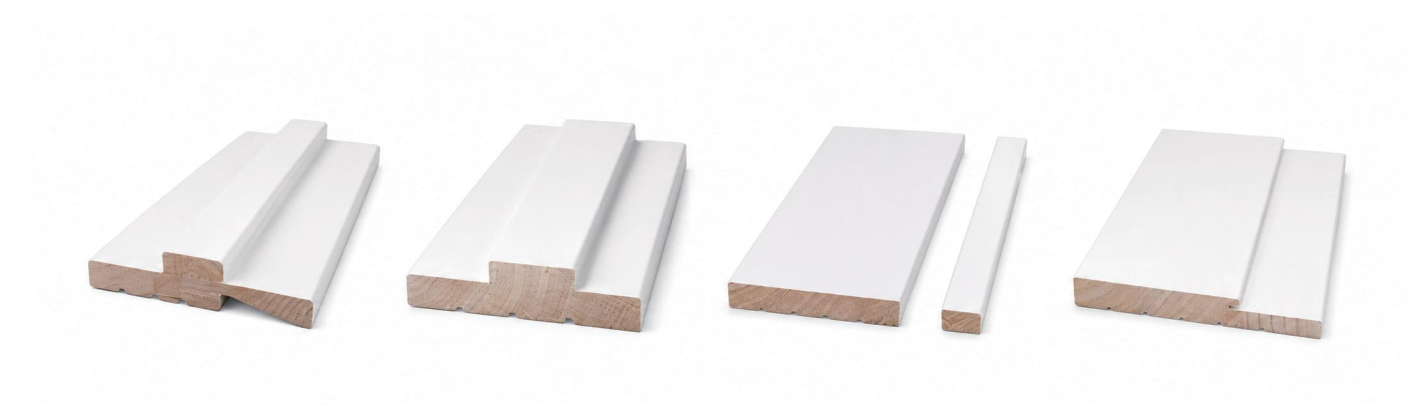

Double-step frame profile with dual rabbets for improved door positioning and alignment. Commonly used for interior doors.
